Rubas Hussain

FLUTTER DEVELOPER

PROFILE

I am a Flutter developer with approximately 1.5 to 2 years of experience in building dynamic and user-centric mobile and web applications. Proficient in Dart programming and adept at utilizing state management tools like GetX and Provider to deliver high-performance, responsive solutions. Experienced in integrating APIs, managing Firebase services, and designing intuitive user interfaces. Passionate about writing clean code especially using MVVM and MVC architecture, solving complex problems, and continuously enhancing skills to keep up with the latest industry trends.

FLUTTER DEVELOPER

SKILLS

- Dart Programming language
- OOP
- Flutter Framework
- State Management
- Clean Code Architecture (MVC, MVVM)
- Database Integration (SQLite, MongoDB)
- Firebase Integrations
- API Integrations
- Third-Party-Integrations (Google Maps, Zego Cloud, Stripe)
- Version Control (Git , GitHub)
- Deployments (Play Store, App Store, C-Panel, Vercel)
- Agile Development
- Critical Thinking
- Code Debugging
- Performance Optimization
- Team Work

ACHIEVEMENTS

- **APTECH**
  Flutter Development Course

- **SMIT**
  Backend Development Course
